Together with Report of
Independent Public Accountants

Report of Independent Public Accountants

We have audited the accompanying combined statement of assets acquired and liabilities assumed of the Bahco Group as of December 31, 1998, and the related combined statement of revenues and direct expenses for the year ended December 31, 1998. These combined financial statements are the responsibility of the Bahco Group management. Our responsibility is to express an opinion on these combined financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The statements have been prepared in connection with the sale of the Bahco Group by Sandvik AB to Snap-on Incorporated and are not intended to be a complete presentation of the assets and liabilities or the revenues and direct expenses on a stand-alone basis.

In our opinion, the statements referred to above present fairly, in all material respects, the assets acquired and liabilities assumed of the Bahco Group as of December 31, 1998, and the revenues and direct expenses for the year ended December 31, 1998, in conformity with generally accepted accounting principles.

Note 1 - Summary of Accounting Policies

A summary of significant accounting policies applied in the preparation of the accompanying combined financial statements follows:

a. NATURE OF OPERATIONS:

The Bahco Group is comprised of a combination of specific legal entities and carved out divisions all of which are wholly-owned by the parent company Sandvik AB. In preparation for the proposed sale of its Saws and Tools business, Sandvik AB created the Bahco Group. The Bahco Group is a manufacturer and supplier of professional tool products. Products are manufactured at 11 plants in Sweden, Germany, Portugal, France, England, the United States and Argentina. These tools are designed for and sold mainly to professional users throughout the world.

b. USE OF ESTIMATES:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. PRINCIPLES OF COMBINATION:

The combined financial statements include the accounts of the specific legal entities and carved out divisions which comprise the Bahco Group. The statements also include the investment in UTT, a speciality manufacturer of electronic torque tools and Deville, a speciality manufacturer of professional pruning equipment. The Bahco Group holds a 49 percentage interest in UTT and a 35 percentage interest in Deville. Both of these investments are accounting for under the equity method of accounting. Transactions with Sandvik AB and other Sandvik AB entities, not included in the Bahco Group, are shown as Due From Affiliates and Due To Affiliates on the accompanying financial statements. All significant intra-group accounts and transactions have been eliminated.

d. BASIS OF PRESENTATION:

The accompanying financial statements include the assets acquired and liabilities assumed at December 31, 1998, and revenues and direct expenses from January 1, 1998 through December 31, 1998. In the opinion of management, these financial statements include all adjustments necessary to present fairly the Combined Statement of Assets Acquired and Liabilities Assumed as of December 31,1998, and the Combined Statement of Revenues and Direct Expenses for the year ended December 31, 1998. All adjustments made have been of a normal recurring nature.

The entities within the Bahco Group have their own administrative functions such as human resources, finance and accounting. The costs of these functions are included in the accompanying financial statements. Sandvik AB also has similar administrative functions such as human resources, corporate finance, legal and treasury departments, the cost of which were not historically allocated to the Bahco Group. In addition, the many entities of the Bahco Group are part of and integrated with the entities of Sandvik AB and are included in the combined tax return of Sandvik AB. Because of the inherent nature of carved out divisions not being legal taxed entities, separate provisions were calculated for many of the entities that make up the Bahco Group. As a result, provisions for income taxes are not included in the combined statement of revenues and direct expenses.

The Bahco Group's primary source of financing is through inter-company borrowings from Sandvik Finance B.V. - a subsidiary of Sandvik AB. Sandvik Finance B.V. cost of capital was not allocated to the Bahco Group and as such, no interest expense on borrowings from Sandvik Finance B.V. are included in the accompanying combined statement of revenues and direct expenses. The inter-company debt owed by

the Bahco Group to Sandvik Finance B.V. is included in Due To Affiliates in the accompanying financial statements. Third party debt exists only for the entities that existed as separate legal units prior to the formation of the Bahco Group. As such, no third party debt exists for the carved out divisions. Interest expense on third party debt is not included in the accompanying financial statements.

As a result of the relationship between the Bahco Group and Sandvik AB, the financial position and results of operations are not indicative of the results of the Bahco Group business had it been a stand-alone entity. Additionally, these financial statements are not indicative of the future financial position or results of operations of the Bahco Group business.

e. CASH EQUIVALENTS:

The Bahco Group considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash equivalents are stated at cost, which approximates market value.

f. FOREIGN CURRENCY TRANSLATION:

The functional currency of the Bahco Group is Swedish Krona. The financial statements of the Bahco Group's non-Swedish subsidiaries are translated into the functional currency. Net assets of certain subsidiaries are translated at current rates of exchange, and income and expense items are translated at the average exchange rate for the year. For purposes of this report, amounts have been converted into US dollars using a conversion rate as of December 31, 1998 of 8.1103 Swedish Krona per US dollar for assets and liabilities and an average rate for the year ended December 31, 1998 of 7.9979 Swedish Krona per US dollar for revenues and direct expenses. All amounts in this report are stated in US dollars.

g. INVENTORIES:

Inventories consisting of manufactured products are valued at the lower of historical cost or market. Manufactured products includes the cost of material, labor and manufacturing overhead. Inventories are accounted for under the first-in, first-out ("FIFO") cost method.

h. PROPERTY AND EQUIPMENT:

Property and equipment is stated at cost less accumulated depreciation. Depreciation is provided on a straight-line basis over estimated useful lives. Depreciation expense for 1998 was $11.6 million. For detailed property and equipment information, refer to Note 4.

i. RESEARCH AND DEVELOPMENT COSTS:

Research and development costs are expensed as incurred. For 1998 these costs were $2.8 million.

j. REVENUE RECOGNITION:

Revenues are recognized at the time of shipment and are equal to sales price less deductions for discounts and returns.

k. WARRANTY EXPENSE POLICY:

The company provides product warranties for specific product lines and accrues for estimated future warranty costs in the period in which the sale was recorded.

l. Advertising and promotion expense:

Advertising and promotion costs are generally expensed when incurred.

Fluctuations in exchange rates between the Swedish Krona and local currencies are absorbed at the Sandvik AB level and not allocated to the Bahco Group.

While the Bahco Group sells primarily to distributors, the Bahco Group's account receivable do not represent significant concentrations of credit risk because of the diversified portfolio of distributors and geographic areas.
